

Dallas (center) and the AAMCO team will help you keep your ride on the road.

# AAMCO Venice

So Much More Than Transmissions!

WRITTEN BY JOY FREEMAN & PHOTOGRAPHED BY KELLI TINDALL  
VENICE GULF COAST LIVING MAGAZINE

How many times have we all heard the famous AAMCO commercial played on TV and radio? While most people associate the company as being an expert in transmission repairs, Dallas Council, owner of AAMCO Venice, explains that AAMCO is so much more. A delightful gentleman, Dallas's personality alone is enough to make customers feel comfortable trusting one of their most valuable assets to the care of his competent and knowledgeable service staff.

Dallas Council takes pride in being a dedicated family man who cares about people first. His dedication to teen outreach with The Warehouse of Venice and Venice D-fy (Venice Drug-Free Youth) is just one of the many ways he gives back to the community he loves. A wonderfully enthusiastic nature bubbles over when he speaks of his family, customers, team members, and our charming Gulf Coast town.

Dallas explains, "AAMCO Venice has state-of-the-art equipment and the most highly trained technicians who can work on about any vehicle. Our

skilled team is known for being able to make the most complicated repairs in a timely fashion. Interestingly enough, our professionals can work on everything from today's state-of-the-art vehicles to classic, vintage, and antique cars, and can provide general maintenance on any vehicle while keeping the owner's factory warranty intact. So, whether you need an oil change, tires, major or minor repairs, or about any type of maintenance, AAMCO Venice can do the job."

Also, you can relax in a comfortable lounge area if you choose to wait or someone on the staff will be happy to give you a ride and pick you up when the job is completed. Additionally, AAMCO has partnered with a local car rental company that can provide you with a discounted rental that will be delivered and then picked up right on-site when a more complicated repair is completed.

Dallas's caring nature is exhibited when he says, "Helping people get through challenging times with a shoulder to lean on and finding solutions that take away worries and replace them with a smile, hope, and appreciation is one of my greatest rewards." For anyone who needs financing, diverse options are available to meet almost any customer's needs.

Dallas's experience as a Customer Service Manager with AAMCO since 2002 is immediately and abundantly evident.

### Motor on Over

If you need to leave your vehicle, we will be happy to give you a ride home and pick you up when the job is done!

His attention to detail, the importance of actively listening to customers, caring about them, allaying their concerns, and finding solutions to get them safely back on the road is what he considers to be his priority...and it doesn't stop there. Follow-up to make sure everything is as it should be, checking in with customers, and providing a true Nation Wide warranty are also standard practices. So, if you're in the market for a car care specialist who truly cares, give Dallas's team a call to set up an appointment.
