

GULF COAST HOME

There are many reasons why we say that home is where the heart is. Our homes can imbue us with a special sense of comfort and peace as we relax and revitalize ourselves in the serene atmosphere. They can also be welcoming destinations for entertaining and spending time with our friends, family, and guests, whether they are coming over for a short stay, a special celebration, or any other occasion.

Given the role it plays in our lives, when it's time to remodel an area in our homes, it's only natural to seek out a locally owned, highly skilled, innovative company that can handle every detail of your project in a professional, communicative, and timely manner. A successful remodeling project should take into account multiple factors such as your personal style, budget, timeframe, and the practicality and functionality of the overall design.

When you work with Kitchen & Bath on the Isle, a family-owned and -operated business with 45 years of local experience, its skilled team will confidently guide you step by step through every aspect of your unique project. Start by visiting its one-stop-shop showroom where you can easily make selections, then see them displayed on the three-dimensional (3D) imagery. From there, you can be sure that, with a Florida state-certified, insured, licensed building contractor handling the details for you, the work will be organized so that the job runs smoothly.

"We will take care of all the designing and permitting for you," states Owner/Manager Levi Duyn. "If your project needs walls moved or space added, we can show you what your kitchen or bath project will look like in 3D virtual reality

Celebrating 45 Years of Customer Satisfaction

using state-of-the-art media technology, enabling you to make changes before the project is even started. We also have an online scheduling program and daily phone calls that make the entire project interactive with the owners, ensuring that they know what is happening every day."

As another part of ensuring that its clients have an exceptional remodeling experience, the company is firmly committed to putting dust-free practices into place. Levi explains, "This is done by building ZipWall® barriers to protect the rest of your home during construction and using HEPA vacuums and air scrubbers to maintain a dust-free environment, giving our clients a stress-free remodeling experience!"

Kitchen & Bath on the Isle understands the importance of providing customers with quality work that yields superior results. In recognition of this resolve, the business has garnered numerous accolades from

companies and people throughout the Venice community. Among its many credentials, it is a member of the National Kitchen & Bath Association and is recognized as a Certified Aging-in-Place Specialist (CAPS) by the National Association of Home Builders. Honored by the *Venice Gondolier-Sun* in the Best of Venice for Kitchen & Bath Remodeling, it also earned first place in Best of HOUZZ for Client Satisfaction in 2016-2021. Also ranked in the national *Qualified Remodelers Magazine* Top 500, the company has established itself as a "Leader in Customer Satisfaction."

"Even though we have received many professional endorsements, our most cherished ones are the letters of recommendations we receive from our customers," adds April. "Our website also includes testimonials from numerous customers who were so delighted with us, that they wanted to share their experiences with others. Venice is our home, and our goal is to make our customers happy that they chose us to do their project!"

"Stress-free remodeling doesn't happen by chance," owners Levi and April agree. "Our systems, with our one-stop-shop showroom, design team, in-house craftsmen, dust-free services, and online scheduling, will take the stress out of your project. We are the company you are looking for...not by chance, but by design."
