VENICE GULF COAST LIVING MAGAZINE

Elite Outdoor Kitchens and Design has been in business for over 12 years, designing, manufacturing, and installing custom cabinetry to help create your “dream” outdoor kitchen. The company’s team takes your vision and brings it to reality, making your outdoor living space the ultimate in outdoor living. These professionals are able to offer you landscape design as well as fireplaces, fountains, fire pits, and other accessories to complement your home.

Whether you want to spend the day poolside, grilling in your outdoor kitchen, or enjoying a chilled beverage, Elite will transform your outdoors into your ideal retreat, and there, the choices are endless!

Getting started is easy: call and schedule an appointment to meet with one of Elite’s team members to discuss what you are looking for and what features you would like to include. They will work with you to create your vision. Whether you are entertaining your friends and family or simply enjoying your lanai area and backyard, Elite can help create the perfect, at-home getaway. Once you agree to the layout and design, its team will manage the project to completion.

The company is committed to providing premium product and workmanship. “We take pride in receiving referrals from previous customers,” notes owner Rita Pogany. “This is how our business grows: the ability to offer quality product and customer service that are second to none. We take great satisfaction in making our customers happy that they chose us.”

In partnering with Treasure Cove Home and Gardens, the two showrooms allow you to expand your vision for your ideal environment. By bringing outdoor appliances, furniture, garden items, and landscaping features together under one roof, the two companies ensure that you can create a lush outdoor sanctuary that’s fully prepared for any entertaining need and is truly the ultimate in outdoor living.

Providing the perfect blend of aesthetics and durability, Elite has made its practice to use materials that are built to withstand the outside elements. Many options are provided to help you customize your kitchen and outdoor space, making it uniquely your own. For example, a project might include a fire pit, allowing you to use your space year-round, and also create a comfortable seating area.

Thinking of creating your dream outdoor living space? Elite Outdoor Kitchens and Design is here to create, design, and install the perfect outdoors to fit your lifestyle.
