Trace a heart or connecting hearts in the sand and write your names inside.

Stroll hand-in-hand along our beautiful Gulf shores and feel the sand between your toes. Listen to sounds of the sea birds flying overhead. Enjoy the salty fresh air and together discover those little love messages you have strategically created in the sand for your valentine.

Look for that unique, heart-shaped rock, carved by nature as a keepsake of your special time together.

How do I love thee? Let me count the waves...
