Your home is your sanctuary: a relaxing retreat at the end of the day and a welcoming place for inviting loved ones to stop in for casual visits, special gatherings, and holiday celebrations. When it's time to remodel an area in your home, it's only natural to seek out a locally owned, highly skilled, innovative company that can handle every detail of your project in a professional, communicative, and timely manner. Many different aspects are involved in a remodeling project, including personal style, budget, timeframe, and the practicality and functionality of the overall design; however, the good news is that you don't have to figure any of this out on your own.

A family-owned and -operated business with 43 years of local experience, Kitchen & Bath on the Isle is fully equipped to guide you every step of the way, starting with its one-stop-shop showroom where you can easily make selections, then see them displayed on the three-dimensional (3D) imagery, and ending with a Florida state-certified, insured, licensed building contractor who will organize the work to ensure the job runs smoothly. "When working

with us, we take care of all the designing and permitting," states Manager Levi Duyn. "If your project needs walls moved or space added, we can show you what your kitchen or bath project will look like in 3D virtual reality using state-of-the-art media technology, enabling you to make changes before the project is even started." Al Duyn adds, "We also have an online scheduling program and daily phone calls that make the entire project interactive with the owners, ensuring that they know what is happening every day."

Another important part of the remodeling process that the company strongly adheres to is putting dust-free practices into place. Levi explains, "This is done by building ZipWall® barriers to protect the rest of your home during construction and using HEPA vacuums and air scrubbers to maintain a dust-free environment, giving our clients a stress-free remodeling experience!"

Kitchen & Bath on the Isle understands the importance of providing customers with quality work that yields superior results and has garnered numerous accolades from companies and people throughout the Venice community. A division of Duyn Construction, LLC, the business is a member of the National Kitchen & Bath Association and is recognized as a Certified Aging-in-Place Specialist (CAPS) by the National Association of Home Builders. Honored by the *Venice Gondolier-Sun* in the Best of Venice for Kitchen & Bath Remodeling, it also earned first

place in Best of HOUZZ for Client Satisfaction in 2016-2021. Also ranked in the national *Qualified Remodelers Magazine* Top 500, the company has established itself as a "Leader in Customer Satisfaction."

"Even though we have received many professional endorsements, our most cherished ones are the letters of recommendations we receive from our customers," adds April. "Our website also includes testimonials from numerous customers who were so delighted with us, that they wanted to share their experiences with others. Venice is our home, and our goal is to make our customers happy that they chose us to do their project!"

"Stress-free remodeling doesn't happen by chance," owners Al and Levi agree. "Our systems, with our one-stop-shop showroom, design team, in-house craftsmen, dust-free services, and online scheduling, will take the stress out of your project. We are the company you are looking for...not by chance, but by design."
