Rattan ~ The Perfect Choice for the Florida Environment!

First and foremost, we at Rattan Wicker and Cane extend our most heartfelt sympathy for our fellow Floridians who have lost their homes or suffered hardship and loss due to Hurricane Ian.

As we continue into 2023, we see a "Return of Rattan." Rattan is everywhere from home décor magazines to model homes and fine home stores! Sustainably grown in the Philippines, Indonesia, and Malay Archipelago, rattan is a superior product due to its durability and natural beauty. It can be steamed and heated to be bent, twisted, and turned to make unique, beautiful furniture as seen in our South Shore Collection from Classic Rattan. And because it's grown in a tropical climate, it's perfect for our Florida environment.

Rattan can also be stripped to make wicker, which brings up the question, what's the difference between rattan and wicker? And here is your answer: WICKER is the style and method of weaving strips of RATTAN.

At our family-owned store, you will find many different collections of rattan and wicker for your home. We have dining, living room, accent chairs, cocktail tables, and barstools, all of which can be customized to make them uniquely your own. With a terrific selection of

fabrics and finishes, we offer wonderful ways to beautify your home. Additionally, our talented designers will help walk you through the process to guide you along the way, at no cost to you.

Offering an array of outdoor furniture, we have been voted the "Best in Venice" in outdoor furniture for over 7 years. We carry many different styles from contemporary to traditional with neutral or vibrant outdoor fabrics that withstand our Florida heat and humidity.

We invite you to come in and browse! In addition to our rattan collections and outdoor furniture selections, we also have rugs, lamps, art, and unique accessories to see. In today's design world, the choices are bountiful. We hope to make it an exciting experience for you to simply find that special piece or help design your interior space. When there are beautiful products to choose from, it makes a project fun and exhilarating, even for a reluctant spouse who came along "just to measure" and ends up enjoying the process.

We value you, your time, your opinions, and your years of hard work to have a nice home.

So come and join us at Rattan Wicker and Cane where you will always be greeted with a smile and a heartfelt invitation to enjoy your browsing.
