

A FEAST OF FALL COLORS

Autumn is the perfect time to decorate with the festive hues of the season, such as deep burgundy, warm rust, pumpkin orange, and rich crimson. To inspire you in creating harvest-themed place settings, we present three simple, yet stunning ideas that bring the elements of fall right to your table.

A Touch of Whimsy . . .

Pair playful polka-dotted dishes and fringed white napkins with elegant silver elements and glassware for a sophisticated, yet utterly charming table arrangement. Decorative leaves tied to the stemware enhance the fun, fall-festive style.

Nature's Table 🌻

Bring beautiful autumn colors to your table by wrapping a snippet of fall foliage around your silverware. Scatter dried fruit and seasonal berries around each place setting to complete your harvest-themed display.

Elegantly Autumn 🌻

Position a fine white china plate on top of a delicately crocheted doily, arranging sunflowers along the edge. Center a burgundy napkin on each place setting and, for the finishing touch, insert a rust-hued spray of flowers to convey that an intimate mealtime awaits.

Enjoy setting the table and the mood to reflect the warm colors of the season!
