VENICE GULF COAST LIVING MAGAZINE

Talented landscaper Juan Garcia has become known on the Gulf Coast as something of a lawn and garden guru. Transforming unkempt terrain into sustainable, aesthetically pleasing designs, he lives and works by one simple philosophy: reputation matters. "My reputation is what drives my success," Juan says. "From day one, I've guaranteed and delivered the quality lawn care that customers deserve, and I won't compromise on that guarantee."

Licensed and insured with over 20 years of experience, Juan has made his mark in the local landscaping industry through hard work and positive word-of-mouth recommendations. Originally operating the business as a one-man show, Juan welcomed his son, Jesus Garcia, as maintenance manager to oversee his skillful crews two years ago. In 2021, his son, Juan Jr. (not pictured), joined the company after graduating from The University of Florida, bringing his expertise in Landscape Architecture to the thriving family company and enabling it to offer landscape design services.

Juan Jr. shares, "My brother and I grew up working for our dad and saw all the effort he put into building his business. As we both grew older, we realized that we wanted to help him protect and grow that business. When I went to school, I knew that I wanted to get a degree in something that could help grow the business and bring a better level of service to our customers."

This father-and-sons operation continues to rise among the ranks of countless competitors in the region, welcoming numerous new clients. Juan attributes honesty and reliability as the two most important reasons he remains successful. "If I can't beat the jobs of my competitors by price or quality, I won't do it," he says. "I'm real upfront with potential customers, and I think they respect that."

The Garcia team strives to provide high-quality landscapes that satisfy residential and commercial customers' needs and won't sacrifice the value of their work. The company's extensive services include everything from trimming, mulching, sod installation, and planting, to finding suitable vegetation and garden décor. Through the expanded design services, collaborate with Juan Jr. to create a plan that accentuates a landscape's best features, camouflages less attractive areas, and develops a setting with a touch of artistry and personality. These experts can also haul in a variety of shell, stone, and/or river rock that may be used

in driveways, flowerbeds, or walkways to keep weeds at bay and to enhance your property's natural beauty.

Home and business owners rely on Juan and his crew for the upkeep of their lawn and landscape through regularly scheduled mowing and maintenance work. Services are especially important in populated locations such as hotels, condominiums, and apartment complexes that wish to maintain a welcoming curb appeal. Homeowners can also benefit by increasing the value of their property with meticulously represented scenery.

Together, the Garcia team creates a well-rounded array of experience and knowledge of horticulture, allowing them to keep a stunning terrain in peak condition year-round.

In the end, Juan says, "We measure our success by the satisfaction and positive feedback we receive from our customers. Whether you hire us to maintain your residential or commercial property, our goal is to make your landscape the focal point in any neighborhood or business location."

Call Garcia Lawn Mowing & Landscaping today, and let Juan and his experts transform your land into a masterful work of art.
