Historic Downtown Venice has an intriguing spot to visit, and it is the perfect place for adults to relax while the kids have fun! Located at the corner of Nassau Street North and Tampa Avenue West in Centennial Park, a children's interactive fountain greets visitors with pulsating water pushing upwards to the sky!

During the day, children splash through the never-ending cascading water, and at night, the fountain glows with colorful lights while the stars sparkle in the sky. Enjoy a relaxing view of the historic Venice Hotel and San Marco Building while sitting in the shade chatting with other visitors. It's calming to hear the water flowing, and the heart warms when seeing and hearing the giggling little ones. Enjoy this path in paradise...
