

COOL BLUES...

BY CHRIS FRANCIN
VENICE GULF COAST LIVING MAGAZINE

A cozy coastal bedroom decorated in a casual, chic style can transport you to the beach, no matter where you live! Designing a barefoot comfy beach haven featuring bright and airy rooms that blur the line between indoors and outside can be simple. We have selected a few rooms that bring this easy, breezy living to life and offer plenty of gulf-at-your-doorstep ambiance.

Sheer Elegance

Billowing in the breeze when windows are open, sheers hang high up on the wall, lending an airy elegance to the room. Offering a pop of coastal charm, the gulf blue pillows and the cream-colored bedspread sprinkled with a bit of blue add to the allure of this coastal abode. As the sheer tiebacks are released, the room becomes your own personal retreat where summer dreams await you.

Waves of Blue

A blend of brilliant blues is the central theme of this room, showcasing a variety of beautiful pillows covered in creative designs that adorn the bed. A trio of turquoise ceramic art is positioned on a white-washed wall, becoming the backdrop for the luxurious vanilla-hued leather headboard. Pink-tinted light bulbs provide this sanctuary with an inviting soft glow, the perfect final touch for relaxation.

A Summer Place

The simplicity of this beachside bedroom, steeped in naturally soothing hues of cool blues, encourages peaceful thoughts and relaxation. A small round table is draped with a floral, calico-style print and topped with delicate white lace. Adding a down-to-earth feel to the interior design, the headboard's charming picket-fence style pattern repeats on the coverlet and brings together this "beachy" theme. With the sweet fragrance of white hydrangeas at the bedside and the powder sky blue wall, this beach cottage becomes the perfect summer place.

Wings in Flight

Setting a mood of striking intrigue for this tropical-style room, the accent wall is painted in midnight blue and embellished with a group of white winged wonders. The sleek, modern lamps on the matching black-and-pewter knobbed nightstands turn the spotlight on the beautiful birds, and add a warm glow. Keeping the room cheery and bright, this creative design includes pure white drapes, featuring a playful blue leaf pattern, a fluffy white comforter, welcoming pillows, and a breakfast tray.

Leaving for the season or any reason?
