

Seasonal Seaside Settings

WRITTEN BY BETSY A. ENO

Shades of blue, white and silver accompanied by a few simple elements such as harvest berries and fall foliage are all you need to design a coastal autumn place setting. Here are two easy-to-do ideas to get you started.

A Playful Trio

Slide matching silver rings over folded napkins. Insert either a branch of seasonal berries or a set of silverware, or attach a piece of fall foliage affixed with a notecard to the outside of the napkin ring. Select one style or showcase all three by featuring a different design at each place setting. Nestle a leaf under the corner of a crystal votive holder filled with a lit candle and line several of these glowing lights throughout the table for the perfect finishing touch.

*Never leave a burning candle unattended.

A Hint of Autumn

Create a more formal coastal setting by draping a lace cover over an aqua tablecloth and stacking different sized white scalloped plates atop one another. Add a bit of elegance to the design by securing a rolled white linen cloth with a vintage napkin ring. Showcase the season by tucking the stem of a fall leaf underneath the ring, and finish by placing the silverware next to the napkin.
