The egg, a symbol of rebirth and springtime, is one of nature's most perfect vessels, providing an ideal canvas for creative designs. This holiday, you can roll out a little flair and fun by decorating them in a variety of unique ways. To carry on the Easter tradition, we present a parade of beautifully displayed eggs that are easy to make.

Easter Egg Parade

It's a Wrap!

Want an easy, effective alternative to dyeing your Easter eggs? Sheer, colorful ribbon set against the stark white shell results in a vivid display that will brighten any basket!

Fragrant Elegance

Resting on a creamy white plate, a pastel floral arrangement is paired with glittered eggs. Topped with a light, airy sprig of delicate baby's breath, this display will give your dining room table a touch of elegance.

Donut Surprise

Certain to be popular with all your guests, this tablescape, including edible elements, is perfect for the Easter celebration! Position a delectable donut at each place setting, and then nestle an egg inside the center hole. By adding a few rabbits and flowers, you have a fun, delicious way to decorate your table!

Peek-a-Boo!

Look closely and you'll see the two playfully placed little ears right inside this charming box, giving the impression that the Easter Bunny is peeking out to say hello! Perfect for a side table or children's room, this look is created by embellishing a colored egg with a simple bunny design, then placing it inside a small box that contains two or three similarly decorated eggs.

DESIGN & STYLE

The Song of the Easter Bunny

Dressed in strips of sheet music, these Easter eggs are certain to add a musical note to any room! Wrapped in song and twine, this artistic arrangement could be placed on top of the piano or on an entertainment center. A unique design, it becomes a conversation starter for your holiday event!

Eggs, Straight up Please!

Combine nature-inspired elements for a simple, sweet reminder of the season. Made with items purchased from your favorite craft store, this cute little nest is lined with decorative grass, then filled with a trio of eggs, and can be displayed on a kitchen windowsill or as a centerpiece for the breakfast table.

Terry Magruder, owner of Beach Life By Terry, shares about her tucked-away treasure featuring coastal gifts and jewelry.

Q. When did your shop open?

A. January 12, 2019, was the official grand opening of Beach Life by Terry.

Q. What inspired you to pursue the work you do?

A. The love of the beautiful Florida beaches, coastlines, and everything that encompasses the coastal lifestyle.

Q. What would you like our readers to know about Beach Life By Terry?

A. Beach Life By Terry would like our patrons to feel like they are on vacation when wearing our jewelry and while shopping in our store. We concentrate on the total customer experience. We want our customers to love not only what they purchase, but the complete shopping experience.

Q. What are some popular items sold at your store?

A. While our coastal art and beachy home goods are popular, the most popular items are the handmade sea glass and sterling silver treasures we create as well as our sterling silver Caribbean Opal collection.

Q. What words do customers often use to describe your shop?

A. Beautiful, beachy, friendly, unique, well-priced, nautical, and eclectic.

Q. How do you show your customers that you appreciate their business?

A. We love our customers and pride ourselves in delivering the best customer service possible. As a thank-you to our new and existing customers, we have monthly sip-and-shops that feature complimentary champagne, mimosas, and light bites. Simply visit our store or call to be added to our guest list.
